

UFO's

Blessings Rev Davis. I wanted to share something with you that took place about this time of the year two years ago. I was getting ready to go for my daily walk with Tootsie, my little Beagle friend. It was around 10 or 10:30 AM when I went into the living room to turn the TV off.

As I walked into the living room, this is what I saw. On TV, which was on CNN at the time, I saw an amazingly exciting event taking place. CNN was getting ready to go to a live feed. I knew this because, the news caster was talking to his crew and those back at CNN head quarters. He was waiting for the sign to go live. It was night time wherever this event was taking place. I can only assume somewhere in Europe or the Middle East?

I could make out city lights behind the news team. What I was observing was this: Extremely bright objects all in formation were above the city. Then as I was watching, one by one, extremely fast I might add, they descended to a lower elevation still in perfect formation.

What I was watching lasted about 30 to 40 seconds. The news team never did go live. Then as quickly as the amazing event went to this live feed, it returned back to the regular CNN broadcast. Nothing was said about what just aired live on CNN!!!!

When I go home from my walk, I searched the web for any information concerning what I had observed for those 30 to 40 seconds. I found nothing! Then, I came to understand I was shown some future event. Needless to say, that really blew my mind! I can only imagine how this kind of event will change the world we live in.

Many years ago, shortly after the anointing took place, I would be told to look to the east my son. Look to the east. I must wonder if this event is the reason I was told to look to the east? I also wonder who these beings might be? And, why are they making themselves known in this manner.

I have many questions concerning this event I was shown. Are they of the light, or darkness? The bible does say the evil comes as an angle of light. I am seeking God concerning what I was shown. This event has come strongly back to my memory of late. There was about 20 of these bright glowing objects. I know you have had years of research concerning things like this; just wanted to share this with you. God bless.
